

AHMED YASSER

Hadayek Al-Ahram., Aljizah, Egypt • +20-1097700741 • dev.ahmedyasser@gmail.com

SUMMARY

Senior Software Engineer with **8+ years** of experience specializing in Front-End development using **Angular**, **Vue.js**, and modern JavaScript technologies. **Recently** expanded into Full-Stack development with **ASP.NET Core**, contributing to backend API development and end-to-end enterprise applications. Experienced in building scalable, high-performance web applications, real-time communication platforms using **LiveKit**, and leveraging **AI-powered** development tools to accelerate software delivery. Passionate about **clean architecture**, **SOLID principles**, **Performance optimization**, and **creating maintainable software**.

SKILLS

- **Frontend:** Angular (17–20), TypeScript, JavaScript (ES6+), Vue.js, React, HTML5, CSS3/SCSS
 - **UI Components & Design Systems:** Angular Material, Ant Design, Vuetify, PrimeNG
 - **State Management:** NgRx, RxJS, Vuex
 - **Backend:** ASP.NET Core, C#, RESTful APIs, Entity Framework Core, LINQ, Dependency Injection, JWT Authentication, Node.js, NestJS, ExpressJS, Fastify, Laravel, PHP
 - **Databases:** SQL Server, PostgreSQL
 - **Architecture:** SOLID Principles, Clean Architecture, Repository Pattern, Scalable, Application Design
 - **Testing:** Jest, Jasmine, Karma, TDD
 - **DevOps:** Git, Azure DevOps, CI/CD, Angular CLI, NPM
 - **AI Productivity:** Claude, ChatGPT, Gemini, Cursor, Claude Code, GitHub Copilot, Antigravity
-

WORK EXPERIENCE

Senior Software Engineer , INVENTO

July 2025 - Present

- Developed and maintained enterprise applications using **Angular 17–20** and **NgRx** for scalable state management.
- Designed and implemented RESTful APIs and business logic using **ASP.NET Core**, supporting multiple enterprise modules and end-to-end application features.
- Built real-time meeting features including audio/video communication using **LiveKit**.
- Collaborated across the full stack to integrate frontend and backend services, ensuring performance, scalability, and maintainability.
- Leveraged AI agents such as **Claude**, **GPT**, and **Gemini** to accelerate development and improve code quality.
- Utilized modern AI-powered developer tools including **Cursor**, **Claude Code**, and **Antigravity** to streamline development workflows.

Senior Front End Engineer , FRBIM LIMITED

June 2024 - May 2025

- Developed **Autodesk Forge** web-based applications using **Vue.js**, ensuring seamless user experiences.
- Integrated multiple **Forge APIs**, such as Model Derivative, Design Automation, and **BIM360** API, to enhance data visualization and streamline automation workflows for improved efficiency and usability.
- Collaborated with cross-functional teams to align technical solutions with business needs in an **Agile** development environment.

Senior Front End Engineer , CleverSys

May 2023 - June 2024

- **Website Performance Optimization:** Analyzed and improved site speed using **Google Speed Insights**, ensuring smooth and efficient user experiences.
- **Clean & Maintainable Code:** Wrote modular, well-documented code, prioritizing readability and long-term scalability.
- **Testability & Quality Assurance:** Implemented best practices for a **fully testable codebase**, enabling efficient software testing and high-quality development.

Software Engineer , GLOBAL AL-MOTAKAMEL

Feb 2022 - May 2023

- Applied **Agile development** practices, contributing to efficient workflows and delivering robust solutions using **Vue.js, PHP, Laravel, and SQL**.
- Optimized the codebase, achieving a **30%** reduction in page load times and a **50%** improvement in program stability through rigorous testing and refinement.

Front End Engineer , T-Tech

Feb 2021 - Feb 2022

- **Optimized Development Workflow:** Helped implement Agile practices, ensuring the application stayed scalable and easy to maintain as new features were added.
- **Improved Code Quality:** Ran thorough testing to catch and fix bugs early, leading to a 25% decrease in issues and a smoother user experience.
- **Boosted Website Performance:** Applied targeted optimizations that increased site speed by 87%, making the platform more efficient and responsive.

Front End Engineer , SimpleTouch

Jan 2019 - Jan 2021

- I was responsible for developing **ERP** systems, a **loyalty** platform, and a **dine-in** system using **Angular**. I focused on creating intuitive and responsive user interfaces that improved functionality and user experience. I worked in an **Agile environment**, collaborating with teams to build scalable solutions that met business needs.

Front End Engineer , Tindall Media

Dec 2017 - Nov 2018

- Helped improve user experience by optimizing software solutions with **AngularJS** and **ASP.NET Boilerplate**, reducing customer support inquiries.
- Developed scalable and maintainable front-end features, ensuring smooth functionality and performance.
- Worked closely with teams in an **Agile environment**, contributing to continuous improvements and efficient workflows.
- Participated in feature development and iterative design, refining the application based on evolving user needs.

Software Engineer , NTG Clarity

Feb 2017 - Nov 2017

- Built and maintained responsive, user-friendly websites using HTML, CSS, and JavaScript, ensuring optimal user experience.
-

EDUCATION

Bachelor of Science (B.S.) - Computer Sciences
Modern Academy, Cairo

Oct 2012 - May 2016

LICENSES & CERTIFICATIONS

Object Oriented Programming , Information Technology Institute

2013
